

# Heine Mini 3000 Otoscope

**ITEM #:** D-01.70.210 (non-fiber optic) & D-01.70.110 (fiber optic)  
Specify black or blue

**DESCRIPTION:** Heine Mini 3000 Otoscope with handle and 5 disposable specula

**WARRANTY:** 5 years

## **WHAT IS IT?**

A modern pocket sized otoscope that offers the same supreme viewing quality of a full size otoscope.

## **HOW DOES IT WORK?**

- Otoscope should be fitted with either disposable tip (grey) or reusable tip (black)-twist to lock
- Turn otoscope on and insert into ear
- After inspection clean the outside with a soft cloth and inside with a cotton swab or ball
- The included specula can be reused and should be cleaned, sterilized and disinfected; autoclaving is permitted.
- Changing Bulbs:
  - Fiber Optic-unscrew the head, pull the bulb downwards and push in the new bulb
  - Non-FO-Swivel lens to one side, pull bulb backwards out of the head and insert new bulb

## **IMPORTANT TALKING POINTS:**

- **Enhanced XHL Xenon Halogen technology with 100% more light than previous models**
- **Viewing Window with 3x Magnification**
- **Runs on 2 AA batteries**
- **Comes in black or blue**
- **Available in version w/ rechargeable handle; requires purchase of desk charger to recharge batteries**
- **Shockproof, non-slip handle**

## **FIBER OPTIC DIFFERENCE:**

- Unlike the non-fiber optic mini 3000, the bulb shines upward through the handle and allows for a completely clear, unobstructed view
- Insufflation port for pneumatic otoscopy
