FEATURE	BENEFITS
Processing Channels	Accurate processing, precise sound and better speech intelligibility.
Fine-Tuning Channels	More options for personalized sound adjustments for user preferences and hearing needs.
UNIQUE Platform	Smooth and personalized sound in all environments – quiet, loud, challenging and enjoyable.
WidexLink Wireless Connectivity	Fast, echo-free transmission of sound between hearing aids as well as DEX devices.
High-Frequency Boost	Clear and crisp sound in higher frequencies (especially for music).
Preference Control	User can control hearing aids to meet specific needs; either more audibility or more comfort.
Wind Noise Attenuation	Speech and other sounds audible in wind.
Wind Noise Reduction	Reduces the annoyance of wind noise.
Microphone Array Adjustment	Hearing aids can focus front and back for specific situations.
Digital Pinna	Natural front/back localization.
Soft Level Noise Reduction	Unwanted soft background noises are reduced for greater listening comfort.
TruSound Softener	Sudden sounds at all input levels are more comfortable to hear.
Speech Enhancer	Reduces noise and enhances speech in real time in response to individual sound situations and hearing loss.
Noise Reduction	Listening comfort in noise and more speech.
Sound Class Technology	Hearing aids adapt automatically to different listening situations for clarity, comfort and audibility.
HD Locator	Better speech intelligibility in noise.
Programs	Wide range of listening programs for specific and challenging situations.
Zen	Library of Zen melodies for tinnitus management and relaxation.
Audibility Extender	Improves perception and production of important high-frequency speech sounds.
Variable Speed Compression	Automatic gearing for smooth sound and stable audibility.
DEX Accessories	Convenient, high-quality connection to hearing aids from phones, TVs, audio, etc.
App for iPhone and Android	Easy connection and control from most smartphone.

UNIQUE DEX OVERVIEW

COM-DEX

FOR HANDS-FREE STREAMING

A true hands-free device for streaming high-quality sound from most mobile phones to hearing aids. Can be combined with the COM-DEX app for convenient control of hearing aid volume, sound direction and program settings.

- Convenient hands-free solution
- Compatible with most mobile phone
- Stream audio from all Bluetooth devices
- Available in three stylish colors
- 8 hours streaming time
- 8 days standby/control time
- Comfortable fabric neck loop
- Control your hearing aids via an app
- Room Off feature

CALL-DEX

FOR DISCREET STREAMING FROM MOBILE PHONES

- Connects to most mobile phones with 3.5 mm jack output
- Streams automatically
- No buttons
- Constant streaming up to 80 hours
- Standby up to 3 weeks
- Small and easy to handle

RC-DEX

YOUR REMOTE CONTROL

- Program toggle
- Volume up/down
- Key ring attachment
- Approximately 12 months of battery life
- Lock switch

UNI-DEX

FOR PLUG AND PLAY MOBILE PHONE USE

- Connects to all devices with 3.5 mm jack output
- Streams automatically
- Built-in microphone for hands-free talking
- Battery life 40 hours when streaming
- Battery recharges in 1 hour
- Room Off feature

PHONE-DEX

FOR EASY LANDLINE USE

- Range to base up to 900 ft.
- Phonebook for 20 numbers
- 100 hours of standby time and 10 hours call time on battery
- Can also be used as a regular phone – a phone for the whole family

TV-DEX

FOR ENJOYING TV

- High quality audio
- Ultra-low delay "EchoFree™"
- Inputs for both TV and HIFI systems
- Room Off feature
- 10 hours non-stop capacity
- Rechargeable using the TV-Base

FM+DEX

FOR FLEXIBLE STREAMING

- A flexible device for FM streaming
- Small and easy to handle
- Antenna range up to 30 m
- 10 hours battery capacity
- Room Off feature
