

## I'm Listening

I love the pool.  
Diving. Splashing.  
Dunkin' girls.  
I'd stay in 'til  
I was shivery, purple  
and wrinkled.  
But water in my ears?  
No thanks!  
I am listening —  
to my mom. And  
protecting my ears  
with AquaNots™ —  
custom swim plugs  
from Westone.®

 **Westone**

## Are You Listening?

The next time you or your children take the plunge, remember to protect their ears with colorful, unsinkable AquaNots™. Custom-made from an impression of your ear — they fit perfectly to keep the water out. Manufactured from the finest soft silicone, AquaNots™ are clearly marked for left and right ears. And they have handles! So kids can easily insert and remove them. Choose from vibrant neon colors, or choose up to three colors to Swyr!™ together in patterns that are always unique. So before your kids go near the water, see your hearing healthcare professional and ask about AquaNots™. *You'll want to listen.*

## Don't let water get inside ears!

As much fun as water is, it can contribute to severe health problems in your ears. So don't rely on *generic* swim plugs to protect you or your child. Try custom-molded AquaNots™ — for a tight, water-resistant fit.

---

AquaNots™ are custom fit to your own ears.

---

Guaranteed water repellent.

---

AquaNots™ float, so they're almost impossible to lose.

---

Available in an outrageous assortment of colors, including Swyr!™
