

NOW AVAILABLE!

AUDITRAIN

ADULT AURAL REHABILITATION PROGRAM

... a training program designed to help adult CI users improve their communication skills.

MED-EL CORPORATION is proud to distribute the exclusive Adult Aural Rehabilitation Program designed by Geoff Plant. The Adult Aural Rehabilitation Program is made up of four sets of manuals. Each manual set has a Speaker and a User binder to make the training more convenient. The first in the four manual set is available now: **AUDITRAIN**.

AUDITRAIN is a training program designed to help adult CI users improve their communication skills. It consists of twenty-two individual lesson plans, each of which contains both synthetic and analytic exercises. The synthetic materials – question and answer exercises, list of common sentences around a central theme, word matrices and many other exercised – are designed to help clients optimize the use of their CI systems in everyday situations.

For more information regarding our Aural Rehabilitation Program, please contact MED-EL via email at implants@medelus.com.

Three more titles available soon, please watch for:
