# Additional functionality

- ✓ Individual ear SoundRecover2 calculation
- ✓ Enhanced wireless fitting experience
- ✓ Toggle back to previous screen
- ✓ Enhanced accessory selection behavior

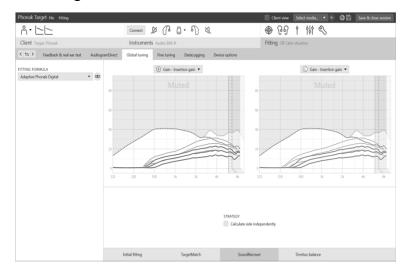

PHONAK life is on

### Individual ear SoundRecover2 settings

 Available for all devices that support SoundRecover 2

### Benefits:

 Helpful for a monaural hearing instrument fitting of the "poorer ear" with asymmetric hearing loss

PHONAK life is on

### Enhanced wireless fitting experience

- iCube II firmware upgrade makes the device more robust against brief interruptions
- Color coded highlighting to confirm hearing instrument selection instruments

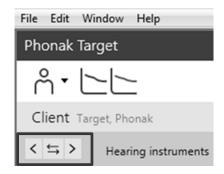

### Toggle back to previous screen

 Toggle back and forth between the last two screens that were accessed

### Benefits:

 Quickly go back to the last previously visited screen from any screen

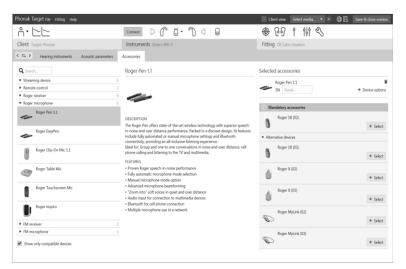

### Enhanced accessory selection behavior

 An alternative set of accessory options are now shown for compatible accessories

### **Benefits:**

 Easily determine which option/s best suit your client's needs

## Phonak Target 5.1 – Simply the best

### New features

- Automatic selection of experience level
- Improved acoustic parameter screen
- TargetMatch for 2cc/test box

### **Additional functions**

- Independent ear SoundRecover2 settings
- Enhanced wireless fitting experience
- Toggle back to previous screen
- Enhanced accessory selection behavior
