Learning Objectives

• Participants will be able to navigate the connection flow used in ReSound hearing instruments to ReSound Smart Fit fitting software.

• Participants will be able to locate and describe the features used in Smart Fit software.

• Participants will be able to complete a first fitting of ReSound hearing instruments.
Let's get started!

Connection Process
Connection Process

Once you click on the Smart Fit icon, the Smart Fit splash page will appear.

Connection Process

Once you click on the Smart Fit icon, the Smart Fit splash page will appear.

The earpiece selection will change the display of the estimated insertion gain. Gain adjustments will be preserved.

Check the Vent Correction box in the Gain Adjustments screen to view the estimated effect of the selected venting option.
Connection Process

Once you click on the Smart Fit icon, the Smart Fit splash page will appear.

Please inform the patient that the calibration tone may be loud. Ensure the environment is as quiet as possible during calibration, including surrounding noise and talking.
